SAMPLE LETTER OR CALL IN MESSAGE (Personalize it...use your own words):

THANK YOU, for standing strong against dirty trade deals, like the TPP.

BUT PLEASE, MAKE AMERICA GREAT by not building pipelines but by promoting the growth of clean energy jobs and businesses! Support renewable energy!

TO SIGN AN EXECUTIVE ORDER, to move forward on the construction of pipelines, IS DANGEROUS for American health and for our national security in the global community.

I totally disagree that approving the Keystone XL pipeline, or the Dakota Access Pipeline or the Alliance Sunrise Pipeline is in the best interest of the American people. It goes against our national interests. To continue to scare, even threaten, American landowners with eminent domain, to seize their private property in order to build these pipelines, is wrong.

When there are spills, America will be paying for the cleanup and suffer from the pollution!

REMEMBER, TransCanada, after the initial rejection of the Keystone XL pipeline, sued the U.S. under the North American Free Trade Agreement (NAFTA) for \$15 billion.

I am counting on you to protect American landowners and Native American tribal interests from oil companies trying to steal and threaten their land by constructing these dirty and dangerous pipelines through it. I call on you to protect our clean air and water by not permitting a tar sands superhighway that will endanger both and hasten the climate crisis.

These pipelines are not in our national interest. I urge you to follow through on your promise to put ALL AMERICANS FIRST...not just some of the people who will profit in the short-term and make all of us suffer in the long-term!
